PRODUCT DEMO · WHAT'S INSIDE

4 workflows + analytics

Leasing, maintenance & vendors, appliances, billing, plus churn prediction and forecasting

1 source of truth

Every unit, tenant, cheque, vendor job and invoice linked together

Built for Dubai

Ejari, Smart Rental Index, PDCs, DEWA, VAT and WhatsApp workflows

Live in weeks

We migrate your Excel sheets, cheque lists and vendor records

WHY AGENCIES SWITCH

The problems your team deals with every day

Most Dubai agencies run on a mix of Excel sheets, WhatsApp groups, paper cheque registers and memory. Here is what that costs you and how VantageRental5x fixes each problem.

PROBLEM**Cheques tracked in spreadsheets**

- ✓ A digital cheque register with deposit-date reminders, bounce handling and automatic follow-ups to the tenant.

PROBLEM**Renewals remembered too late**

- ✓ Renewal alerts at 120, 90 and 60 days, with the allowed increase checked against the Smart Rental Index.

PROBLEM**Maintenance lost in WhatsApp chats**

- ✓ Every request becomes a ticket with photos, priority, SLA timer and a full history per unit.

PROBLEM**No control over vendors**

- ✓ A vendor directory with rate cards, trade licence expiry, response times and quality scores.

PROBLEM**Paying for repairs under warranty**

- ✓ An appliance register flags warranty and maintenance contract cover before a paid job is raised.

PROBLEM**Vendor invoices that don't match the work**

- ✓ Invoices are matched to approved quotes and completed tickets before payment is released.

PROBLEM**Owners asking "where is my money?"**

- ✓ Automatic monthly owner statements showing rent in, expenses out, fees and net payout.

PROBLEM**Deposit disputes at move-out**

- ✓ Photo check-in and check-out reports, compared side by side, with itemised deductions.

ONE CONNECTED PLATFORM

Ten modules, one record for every unit

Every module shares the same data. A tenant's lease knows its cheques, the unit knows its appliances, and every vendor job ends up on the right owner statement automatically.

1 Portfolio

- Buildings, units, owners
- Title deed & DLD numbers
- Vacancy & occupancy view

2 Leads & Listings

- Trakheesi permit tracking
- Portal & WhatsApp leads
- Viewing scheduler

3 Leasing & Ejari

- Contract builder (AR/EN)
- Ejari registration status
- E-signature

4 Cheques & Collections

- PDC register & deposit plan
- Bounced cheque workflow
- Online payments & direct debit

Vantage Core

Units · People · Money · Documents
Roles, audit trail, alerts

5 Maintenance

- Tickets with photos & SLAs
- Preventive maintenance plans
- Emergency escalation

6 Vendors

- Directory & rate cards
- Licence & insurance expiry
- Performance scoring

7 Appliances & Assets

- AC, water heater, kitchen items
- Warranty & maintenance contracts
- QR tag per appliance

8 Billing & Accounts

- Rent, fees, VAT invoices
- Vendor bills & approvals
- Owner statements & payouts

9 Tenant & Owner Apps

- Pay rent, raise requests, download documents
- Owners see income, expenses and approvals live

10 Analytics, BI & Forecasting

- Tenant and vendor churn prediction
- BI dashboards, forecasts and monthly reports

WORKFLOW A · LEASE LIFECYCLE

From enquiry to move-out, without a missed step

Each stage opens the next task automatically, so nothing depends on someone remembering it.

● ● ● Lease · LS-2026-0418

Unit 1204 · Al Noor Residence,
Tower B
2BR apartment · Jumeirah Village Circle

DEMO DATA
ACTIVE

Tenant	Mr. A. Rahman
Term	01 Nov 2025 – 31 Oct 2026
Annual rent	AED 85,000 · 4 cheques
Ejari	REGISTERED
Deposit	AED 4,250 held

Renewal due in 34 days. Rental Index check: current rent is within the average band, so no increase is allowed. Renewal offer drafted at AED 85,000.

Send renewal offer

Ejari certificate

Cheques (4)

⚡ What happens automatically

- Missing KYC documents block the contract until uploaded
- The cheque schedule is created from the rent and number of cheques
- An Ejari reminder is sent if the certificate isn't uploaded within 7 days
- Notice-period reminders (90 days before changing terms)
- Renewal offer drafted with the allowed increase already calculated
- Move-out creates the check-out inspection, the deposit settlement and the Ejari cancellation task

WORKFLOW B · MAINTENANCE, VENDORS & COST RECOVERY

From a tenant's complaint to a paid invoice

Example: an AC stops cooling in July. Here is who does what, and what the system handles for them.

Vendors · HVAC · JVC area

DEMO DATA

VENDOR	AVG RESPONSE	SCORE	LICENCE
CoolAir Technical	2.1h	4.8	VALID
Frost Line Services	3.4 h	4.5	EXPIRES 21 D
Gulf Breeze MEP	5.9 h	3.9	VALID
Desert Chill LLC	—	—	EXPIRED · BLOCKED

⚡ Vendor control built in

- Rate cards per job type, so quotes above the agreed rate are flagged
- Vendors with an expired trade licence or insurance can't be assigned
- SLA timers escalate to the supervisor when a job runs late
- Scores from response time, repeat visits and tenant ratings
- Tenant-caused damage is recharged to the tenant or the deposit

WORKFLOW C · APPLIANCES & ASSETS

Know every appliance in every unit

ACs, water heaters, washing machines, fridges and cookers each get a QR-tagged record. Every repair, warranty claim and service visit is logged against it, so you can decide to repair or replace using real numbers.

1

Register

Brand, model, serial number, purchase date, invoice and warranty end date. A QR sticker goes on the appliance.

2

Cover

Link the manufacturer warranty or maintenance contract. Alerts go out before cover expires.

3

Preventive maintenance

AC servicing every quarter and water heater checks, planned by building and assigned automatically before summer.

4

Repair history

Every ticket, part and cost is saved against the appliance, and repeat faults are highlighted.

5

Repair or replace

When repair costs pass 50% of the replacement value, the system recommends replacing and asks the owner to approve.

6

Move-in / move-out

Appliance condition is included in check-in and check-out reports, so damage is traced to the right tenancy.

Appliance · AST-JVC-1204-AC2

DEMO DATA

Split AC · Master bedroom

Unit 1204, Al Noor Residence B · 2.0 ton ·
Installed Mar 2023

COMPRESSOR ONLY · TILL MAR 2028

Maintenance
contract

CoolAir Technical · quarterly

Next service

12 Oct 2026

Spend to
date

AED 2,340 of AED 3,800
replacement value

DATE	JOB	COST	PAID BY
18 Jul 26	Gas top-up, not cooling	AED 450	Owner
02 May 26	Quarterly service	Contract	Contract
11 Aug 25	Compressor replaced	AED 0	WARRANTY
04 Jun 25	Drain pipe blocked	AED 180	Tenant

3rd cooling fault in 14 months. Repair costs are at 62% of the replacement value, so replacement is recommended.

WORKFLOW D · BILLING & COLLECTIONS

Every dirham in and out, fully reconciled

Rent, deposits, vendor bills, agency fees and owner payouts in one ledger, built around how Dubai actually pays: post-dated cheques, bank transfers, cards and direct debit.

Money in

- 1 Schedule**
Payment plan created from the lease (1 to 12 cheques)
- 2 Collect**
PDCs logged with scans, or online payment links
- 3 Deposit**
Daily deposit list, bank slip matched to each cheque
- ! Bounced?**
Tenant notified, bounce fee added, replacement cheque requested, legal steps tracked

Money out

- 1 Vendor bills**
Matched to the approved job, VAT checked
- 2 Approvals**
Limits by role, and the owner approves anything above their threshold
- 3 Owner statement**
Rent – expenses – management fee = net payout
- ✓ Payout & export**
Bank file for payouts, and sync to your accounting system

Cheque register · October 2026

DEMO DATA

CHEQUE #	TENANT / UNIT	BANK	DUE	AMOUNT	STATUS
000418	A. Rahman · 1204 Tower B	Emirates NBD	01 Oct	AED 21,250	CLEARED
113027	S. Mehta · 507 Palm View	ADCB	03 Oct	AED 18,000	BOUNCED · FOLLOW-UP DAY 2
552190	L. Novak · Villa 14 Arabian Rd	Mashreq	05 Oct	AED 45,000	DEPOSITED
—	Horizon Trading · Shop G-03	Direct debit	07 Oct	AED 12,600 incl. 5% VAT	SCHEDULED
309911	K. Osei · 1810 Tower B	FAB	10 Oct	AED 16,500	HOLD · TENANT REQUEST

⚡ Compliance handled

- 5% VAT on commercial rent, not on residential
- Tax invoices ready for e-invoicing
- Separate deposit and trust account ledgers
- Full audit trail of every edit and approval

MANAGEMENT DASHBOARD

Your whole portfolio at 9 a.m.

One screen tells managers what needs attention today, without calling anyone or opening a spreadsheet.

DATA ANALYSIS SERVICE · CHURN PREDICTION

See who is likely to leave before they do

We analyse your own leasing, payment and maintenance history to score every tenant and vendor for churn risk, so your team can act months ahead instead of hearing it at the notice date.

Retention tasks & alerts

Tenant churn risk · renewals in the next 120 days

DEMO DATA

TENANT / UNIT	RENEWAL	RISK	MAIN REASONS	SUGGESTED ACTION
S. Mehta · 507 Palm View	14 Nov	82 HIGH	Bounced cheque, 5 tickets in 90 days, rent above area average	Manager call, fix open tickets
Horizon Trading · Shop G-03	02 Dec	74 HIGH	Late payments rising, nearby vacancy at lower rent	Early renewal offer
K. Osei · 1810 Tower B	20 Dec	51 MEDIUM	Cheque hold request, slow AC repair last month	Service follow-up
A. Rahman · 1204 Tower B	31 Oct	18 LOW	Pays on time, 3rd renewal, few tickets	Standard renewal

Vendor churn & risk

DEMO DATA

VENDOR	RISK	WHY
Frost Line	HIGH	Declining jobs, licence expiring, slower response
Gulf Breeze MEP	MED	Repeat visits up 30%
CoolAir	LOW	Stable, high scores

Line up a backup vendor before a key vendor drops out in peak AC season.

Signals the model watches

- Payment behaviour: late days, bounces, cheque holds
- Maintenance: ticket count, repeat faults, time to fix
- Price: rent compared with area average and the rental index
- Tenure, unit type, building and season
- Vendors: job volume trend, response time, ratings, licence status

⚡ What you get

- Risk score and reasons for every lease and vendor
- Weekly at-risk list sent to managers
- Revenue at risk in AED, by building
- Model accuracy tested on your own past data first

DATA ANALYSIS SERVICE · BI & FORECASTING

Know next quarter's numbers today

Your data turned into live BI dashboards and forecasts for cash flow, occupancy and maintenance spend, with a monthly report written for owners and management.

OCCUPANCY · NEXT QUARTER

91–94%

29 expected vacancies, 11 in Tower B

MAINTENANCE SPEND · JUN–AUG

+38%

AC peak: book vendors & stock parts early

REVENUE AT RISK · 120 DAYS

AED 1.2M

From high-risk renewals

Figures on this page are sample demo data.

Monthly BI report for owners & management

- Portfolio health: occupancy, arrears, collections
- Churn watchlist: tenants and vendors at risk
- 3 to 12-month forecasts for cash flow and occupancy
- Maintenance cost by building, category and vendor
- Rent vs. market and rental index comparison
- Plain-English summary with recommended actions

How it is delivered

- 1 Live dashboards**
Inside VantageRental5x, or in Power BI if you prefer
- 2 Monthly PDF pack**
Emailed to owners and management
- 3 Quarterly review**
